

### Model CT36E 36" Framed Electric Cooktop

The black ceramic glass top of the Wolf 36" framed electric cooktop is beautifully complemented by your choice of classic, platinum or carbon stainless steel trim. Four heating elements with nine zones offer exceptional control of temperature for cooking utensils of every size. A bridge connects two elements for an 8-inch by 17-inch, 4400 watt heating area. All elements offer True Simmer along with one element that enables you to set the temperature for melting.

*Model CT36E with classic stainless steel trim.*

#### Features

- Classic, platinum and carbon stainless steel trim
- Easy-to-clean black ceramic glass surface is resistant to scratching, staining, impact and heat—translucent surface allows you to see the glow of hot elements
- High-frequency pulsation elements improve cooking performance and control
- Four heating elements with nine zones
- Bridge-zone element connects two elements to provide a larger cooking area
- Temperature limiter to ensure that safe operating temperature of ceramic glass is never exceeded
- Illuminated touch controls with graduated control lighting
- True Simmer setting on all elements
- Melt setting on one element
- Hot-surface indicator light in control panel
- Lock mode—cooktop can be locked so that no elements can be turned on
- Universal OFF turns all elements off
- Countdown timer with 1 to 99 minute range and adjustable sound frequency and volume
